Faisal N. Abu-Khzam
Professor of Computer Science
Lebanese American University
Beirut, Lebanon

March 29, 2026

Dear Sir/Madam,

It is my pleasure to write this letter in support of Dr. Lucas Isenmann's application for a position at your university. I have known Lucas for nearly three years. During this time, he has been a postdoctoral fellow and research associate at the Combinatorics and Artificial Intelligence Laboratory (CAAIL) at the Lebanese American University (LAU). His work has resulted in several publications and software packages, and he has played a major role in both theoretical and applied data science projects.

Lucas is highly productive and possesses excellent problem-solving and programming skills. He has been instrumental in the success of several projects. He works efficiently and consistently contributes deep ideas and proofs. This has already led to at least five conference papers and three journal publications, with several additional manuscripts currently close to submission. Based on our collaboration, I can also attest to his strong writing skills.

Dr. Isenmann is an excellent team player. He has worked with multiple groups of students on projects in areas such as correlation clustering, biclustering, biological data analysis, network data anonymization, and the complexity of splitting into special graph classes. He has strong expertise in algorithms and complexity theory, complemented by outstanding problem-solving abilities.

I recommend Dr. Isenmann with great confidence and enthusiasm. With his strong background, experience, and potential, I am confident that he will be a valuable asset to any academic program.

Please feel free to contact me if you need any further information.

Sincerely,

Faisal N. Abu-Khzam
